

Important Information from Worth County Primary School

Communication Folders

This year we will be using communication folders instead of traditional agendas. The folder will contain a weekly behavior log (see example below) that both the parent and teacher will use on a daily basis. Teachers will use the log to record daily behavior and pass along important information to parents. Parents are expected to sign the behavior log each night. Parents may use the "Parent Comments" section to write notes to teachers. If a parent needs to make a transportation change it can also go in this section. The transportation change must be dated. If the change is to ride a bus the parent must provide the address the student will be riding the bus to. There is a label on the front right pocket of the communication folder for parents to fill in emergency contact information. Please make sure you do this tonight!

WCPS Code of Conduct

You can access the WCPS Code of Conduct by scanning the QR code or clicking on the link below. Information specific to WCPS begins on page 25. Paper copies of this document are available by request. For easy reference the QR code will also be located on a label on the front left pocket of the communication folder. After reading the document please return the sign off page (located behind this letter) and return it to your child's teacher.
