

**Worth County Elementary School
Third Grade 4th Nine Weeks
Science Pacing Guide**

Week	Dates	Unit Topic	GPS Standard	Focus	Unit Tests Dates
1	March 14 - 18	Heat	S3P1. Students will investigate how heat is produced and the effects of heating and cooling, and will understand a change in temperature indicates a change in heat.	Explain ways heat is produced. Use thermometers to measure heat. Investigate heat transfer. Determine insulators and conductors of heat. Investigate solar heat.	
2	March 21 - 25	Heat	S3P1. Students will investigate how heat is produced and the effects of heating and cooling, and will understand a change in temperature indicates a change in heat.	Explain ways heat is produced. Use thermometers to measure heat. Investigate heat transfer. Determine insulators and conductors of heat. Investigate solar heat.	
3	March 28 - April 1	Heat	S3P1. Students will investigate how heat is produced and the effects of heating and cooling, and will understand a change in temperature indicates a change in heat.	Explain ways heat is produced. Use thermometers to measure heat. Investigate heat transfer. Determine insulators and conductors of heat. Investigate solar heat.	Heat Unit Test March 31st
